AMENDMENT ACCOMPANYING APPLICATION

Honorable Director of
Patents and Trademarks
Washington, D.C. 20231

Dear Sir:

The present application is the national filing of International Application No. PCT/EP00/02646. Submitted herewith is a translation of the application, having appended thereto the claim as amended and attached to the International Preliminary Examination Report. Before calculation of the national filing fee for the United States, it is requested that the application be amended as follows:

In the claims

Cancel claims 1 through 24 without prejudice, and substitute respective new claims 25 through 48 as follows:

25. A folded honeycomb, comprising a large number of corrugated core strips which lie beside one another and in one plane and each consist of a corrugated or trapezoidal core with at least one cover layer, the cover layers of the corrugated
